| It helped me to understand the material very well                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| The activities, readings, lectures, and assignments helped me learn this course pretty well. One thing I didn't really like is how some of the quizzes didn't math up with the problem sets sometimes and I felt prepared to take the test, but didn't get a score I wanted. I feel like Professor did a pretty good job of teaching, but he assumed sometimes we knew things that we didn't know. Like I had never taken econ like that before and I just feel like I needed it dumbed down way more because I had never heard of most of the contents. |
| Everything has been good                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| The readings we did as far as reaction statements didn't really help me learn, but more just connected me to economics in the real world, but the problem sets were very helpful in my learning                                                                                                                                                                                                                                                                                                                                                          |
| Lectures were long but I enjoyed the class                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| The biggest thing that has helped me was the problem sets to help prepare for quizzes.                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| A lot                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| The assignments and readings were thoughtfully chosen and planned and were very beneficial.                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

| He is really passionate about what he teaches and he really wants his students to understand, so he was very open to changing things around for the lecture so we understood it better and having a lot of availability for office hours. |
| His ability to demonstrate on the chalk board.                                                                                                                                                                                            |

| He sometimes confuses me by explaining things and moving all over the place                                                                                                                                                                                                                                                        |
| I think he is very economically smart so a lot of times the way he explained things wouldn't make any sense, he would always try to go over it until we got it, but the way he explained things just wouldn't click with a lot of us a few times.                                                                                  |
| Sometimes he would teach in a way that was hard to understand very having learned Econ before so there were some concepts that didn't make sense and would take often a few times to finally get across and understand, but they were hard concepts in a very small amount of time so it makes a little more sense                 |

| Makes mistakes teaching on problems and explanations. Multiple corrections are needed during problem sets and in class before students can understand the material. Once corrected, the comprehension becomes vastly harder than if learned correctly from the start. Good teacher, just able to tell that it was his first class. |
| Just doublecheck the solutions to problems because sometimes there are errors.                                                                                                                                                                                                                                                     |
