Please comment on how well the activities, readings, lectures, and assignments helped you learn in this course.	3	very well	4.9	Very High	Very High	2-3 hours
	5	The tutorials always helped me review from the lectures of that week, helping with doing the homework sets.	4.6	Somewhat High	Somewhat High	0-1 hours
	6	The activities in class often were distilled versions of what students saw on homework. I feel as if the harder problems should appear in tutorial and easier ones in the homework.	3.1	Very High	Extremely High	4-5 hours
	7	The tutorials were sometimes helpful but they were frequently short and unproductive.	3.4	Somewhat High	Somewhat High	2-3 hours
	8	They all helped	5	Somewhat High	Somewhat High	0-1 hours
	9	The Stata assignments were all fundamentally similar with minute differences that didn't help us learn much. Most of the semester was spent changing the directory, which says something about how much progress was made overall.	4.3	Moderate	Moderate	0-1 hours
	10	Tutorials helped me learn	4.1	Very High	Very High	0-1 hours
	11	The (in class) lectures were extremely content heavy, but I found the tutorials with Pietro extremely helpful to my learning. I definitely learned a lot. The problem sets were really hard and honestly took a long time, but I'm sure they helped a little.	5	Extremely High	Extremely High	4-5 hours
Please identify areas where this instructor could improve his/her teaching.	1	better job communicating with prof	5	Extremely High	Extremely High	0-1 hours
	3	n/a	4.9	Very High	Very High	2-3 hours
	5	I think it would be useful to go through stata line by line at the beginning of class, before we try to do it ourselves.	4.6	Somewhat High	Somewhat High	0-1 hours
	6	The classes often felt disorganized and the instructor made so many mistakes when trying to teach STATA. This made it not only hard to follow what was going on but also very difficult to learn a programming language. The instructor tried very hard but things were just often hard to follow. Also, I felt as if the content that was reviewed in the tutorial was not actually what was necessary at that point in the class. The tutorial should be a review of content, not teaching new things.	3.1	Very High	Extremely High	4-5 hours
	7	Pietro would make mistakes at times and the lectures were not consistently helpful, but that falls on the course and not him	3.4	Somewhat High	Somewhat High	2-3 hours
	8	He could be a little easier to understand. Thoughts a little scattered	5	Somewhat High	Somewhat High	0-1 hours
	9	While not completely his fault, I think that a lot of Pietro's effort was misplaced. He took it upon himself to reteach the entire course within a 50 minute block each week, which obviously wasn't possible. Overall, the required tutorial content spent too much time rehashing the same material from class with even less time to explain it. Pietro taught material just as theoretically as Professor Bennett, which didn't really help people to learn in a new way and deeper. Tutorial should have focused more on provid..	4.3	Moderate	Moderate	0-1 hours
	10	Struggles teaching stata	4.1	Very High	Very High	0-1 hours
